# Section 1: Registering Requestor Application in DigiLocker

Step 1- Login to your admin portal

Step 2- Click on Requestor Option on left panel

Step 3- Click on “Add” button.

The screenshot displays the DigiLocker admin portal interface. At the top left, there are logos for the Government of India and DigiLocker, with the tagline "Your documents anytime, anywhere". At the top right, there is a "Digital India" logo and a user profile for "punemunicipality". The main content area is titled "Requestor Requestors" and contains a search bar with the placeholder text "Search Requestor App Domian". A blue "Add" button with a plus icon is located to the right of the search bar and is highlighted with a red box. On the left sidebar, the "Requestor" option is also highlighted with a red circle. The sidebar menu includes: Dashboard, Uploaded CSVs, Shared Documents, Issued Documents, Settings, Repository APIs, Search APIs, Manage Api Key, Issuer, Requestor, and Trusted Partners.

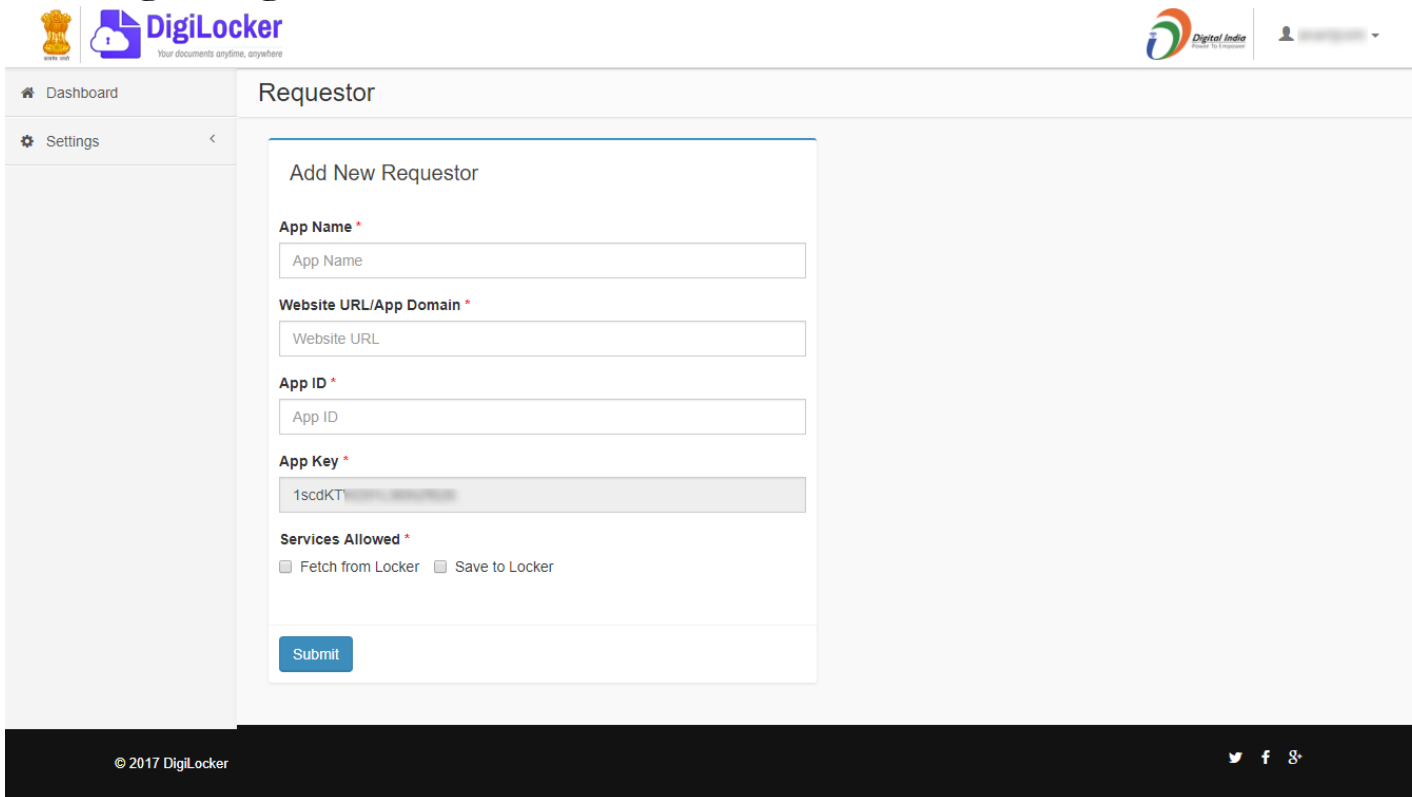

## Step 4- Provide following details in the Add New Requestor form

i. Enter the Application name

ii. Requestor Application Domain: Provide the domain of the application from which the requests will be made to the Digital Locker. This is the same domain where “Fetch from Locker” button will be placed. Please note that the domain/ip provided should be absolute and should not contain www, port numbers, full url etc.

iii. App ID: Provide an alphabetic ID for your application. This will be used while integrating the “Fetch from Locker” button.

iv. App Key: Note down the App Key provided. This will be used while integrating the “Fetch from Locker” button

The screenshot shows the 'Requestor' section of the DigiLocker interface. The 'Add New Requestor' form contains the following fields and options:

- App Name \***: A text input field with the placeholder 'App Name'.
- Website URL/App Domain \***: A text input field with the placeholder 'Website URL'.
- App ID \***: A text input field with the placeholder 'App ID'.
- App Key \***: A text input field with the placeholder '1scdKT'.
- Services Allowed \***: Two checkboxes: 'Fetch from Locker' and 'Save to Locker', both of which are currently unchecked.
- Submit**: A blue button at the bottom of the form.

The footer of the page displays '© 2017 DigiLocker' and social media icons for Twitter, Facebook, and Google+.

### Note:

Please note that in case of multiple entries, keep the values of all the fields such as app id, app name different. This would ensure that there is no conflict when the call is made from DigiLocker to that particular instance of the Requester

**Thank You**
